

Ballaveu

Patri Garcia: voice and traditional percussion

Xavier Rota: voice, guitar and traditional percussion

Ballaveu voices interpret the traditional and popular Catalan songbook, from north to south and from east to west: "balls plans" or flat dances from the Pallars, "jotes" from the Ebro River, "havaneres" from the Empordà and "ballets" and "sardanes" from inland Catalonia, not forgetting the couples', dances that have filled town squares all over the country for centuries. **Ballaveu** are an interesting combination with the voice as the only melodic instrument, a challenge in which Patri and Xavier showcase their expertise and knowledge. Two voices blended as one and creating a magic of harmony that will make you want to dance with emotion.
